AT WORK ON THE REVENUE

The Measure Is the All Absorbing Topic at the State House.

MARTIN REGISTRATION BILL

Amendment Charged With Being Distinctly Partisan Adopted Which Makes Exception of Denver.

Special to the Gazette.

Denver, Feb. 13. The revenue bill is the all-absorbing topic around the state house this week and will continue to be so until it is brought from the joint finance committee and placed on second reading in both houses. The appropriation and finance committees of both houses are working together night and day in their endeavors to get the bill in shape to be reported this week. When the members of these two committees are absent there is scarcely a working majority left in either house. Realizing the importance of the bill the senate adjourned at 11 o'clock this morning until 10 o'clock tomorrow morning in order that the senators on the two committees would not feel that possibly something would be disposed of in the senate which they would like to speak upon. The house did not adjourn but it was compelled to pass the third reading of bills because there were not enough present to guarantee the three-fifths majority which is required.

The only matter of importance which came before the senate this morning was an attempt to make a special order of the Stubbs capital punishment bill for next Thursday at 2 o'clock. The attempt failed.

The time in the house dragged wearily until late this evening when it was enlivened over an amendment offered to the Martin registration bill by its author which excepted cities of the first class working under a special charter from being included in the bill. The charge was made and was not denied that the measure as amended, if adopted, would be nothing more than a political measure for the purpose of keeping Arapahoe county in the Democratic column and also the state if possible. The intention of the amendment was so apparent that the Silver Republicans voted with the Republicans against its adoption. The strength of the Democrats and Populists combined more than offset the strength of the others and the amendment was adopted.

SENATE SESSION.

At the opening of the senate this morning, Senator Parks stated that he would be compelled to ask for a leave of absence until tomorrow morning and he also asked that the Philp local option bill, which had just been reported back from the committee rooms, be laid over until tomorrow in order that he could join in the discussion. Both requests were granted. An attempt was made to place the Stubbs capital punishment bill on the calendar as a special order for Thursday at 2 o'clock, but the attempt failed. The senate then listened to a number of reports from special committees and adjourned until tomorrow morning at 10 o'clock.

IN THE HOUSE.

A large part of the morning session of the house was spent in discussing a motion by Representative Hart of Pueblo, to the effect that the finance committee be instructed to report the revenue bill in 24 hours. The discussion brought forth the fact that the joint committee is working at least 15 hours daily in order to get the bill in readiness to be reported. A few of the members were in favor of ordering the bill reported, but a majority felt that the committee should be given a reasonable length of time in which to complete its work. During the morning Representative Morris of Arapahoe stated that in all probability the bill as amended will be reported to the house Friday morning.

A letter was read from the Pueblo business men asking that suitable laws be enacted to prevent the script system. A number of other petitions were received from constituents throughout the state.

A number of reports were read and adopted.

Owing to the fact that such a large number of the members were absent from the afternoon session of the house, the third reading of bills was passed and the adverse reports on the calendar were taken up. Of the five reports only one was adopted. The other four were either ordered printed or referred to the committee of the whole for further consideration. Mr. Burwell's bill fixing the southern boundary line of the state had been made a special order for today at 2 o'clock. The bill establishes the southern boundary line of the state on the 37 parallel of north latitude, between astronomical monuments numbers 6 and 8. Some few slight amendments were adopted and the bill was passed.

Martin's Bill.

The house then went into the committee of the whole for the consideration of the Martin bill, which provides for the registration of election precincts included wholly or partially within the limits of cities of the first and second class unless working under a special charter. The bill is probably one of the most important measures that will be considered during this session. It provides for an entire change in the registration of voters in these cities. It provides that within 30 days previous to every election the chairman of the two dominant parties shall each appoint one man who shall, together, go from house to house and check the registration of the past election and make all changes necessary, such as change of residence, new voters, moving away, or whatever might be noted at the registration rooms in the court house. Under the present law the county clerk is authorized to drop the names of all who are registered and do not vote. Under the Martin bill no registered names are dropped until the committee of two shall so recommend. The bill, if adopted, will completely do away with the present mode of registration together with its many perplexing features. Mr. Martin explained the workings of his bill yesterday afternoon in a speech which lasted more than an hour.

Denver Excepted.

When brought up today he arose and moved to amend so that it would not be applicable to cities of the first class acting under a special charter. The amendment brought forth a lengthy discussion. The Republicans and Silver Republicans for the first time united and attempted to defeat the amendment. Representative Cannon felt that it should not be passed. He contended that if such a law was good for cities like Colorado Springs and Pueblo it was also good for Denver. He contended that if cities like Colorado Springs and Pueblo and others could be paid a large amount of money through the enactment of laws the city of Denver should be given the same opportunity. Mr. Dickerson spoke against the amendment. Mr. Dickerson always sees "a political nigger in the wood pile," as he said. He felt that this was simply a measure whereby the Democratic party could carry Arapahoe county and then possibly control the state. He contended that it was political legislation pure and simple. He contended that with this law working outside the city of Denver and not working in the city, it would be harder for the Republicans ever to carry the state. He asked the Democratics to kill the amendment and for once in their lives come out and fight in the open. He asked Representative Martin the question direct, "Do you really believe this amendment will be for the best interests of the state at large?" Mr. Martin did not answer but remained silent in his seat. After waiting a moment, Mr. Dickerson said: "I beg the gentleman's pardon for placing him in such a position and I will not press him for an answer."

Mr. Martin remained silent in his seat during the rest of the discussion.

A Plea for Fairness.

Mr. Bartels favored the bill but not the amendment. He contended that the amendment, if adopted, would practically kill the original idea as incorporated in the measure. He referred to the fact that while the city of Denver was at the present time Democratic there was some danger of a change being made in the near future and that if that change should come those who were responsible for the adoption of this amendment would be compelled to reap its results. He also contended that if such a law should be in operation in Pueblo or Colorado Springs it should be allowed to be in operation in Denver. Mr. Bartels made one of the most argumentative speeches yet heard on the floor of the house against the amendment. He pleaded with those of the fusion forces to lay aside politics and vote for the betterment of all. He said: "We should not be here in the interests of the Democratic, the Populist or the Silver Republican parties but in the interests of the state at large." He believed that the bill was good but that the amendment was bad and therefore he would vote against the latter. His remarks were received with continuous applause by a few members in the house and the entire gallery. Despite the protests of those who believed the amendment was party legislation it was finally adopted. The committee then arose and the house adjourned. The consideration of the bill as amended will be continued tomorrow.

FIREARMS USED IN AN ATTACK ON WINFIELD JOINT

Winfield, Kan., Feb. 13.—A mob of 200 men and women raided Schmidt's saloon, the finest in the city, at an early hour today. Some of them fired a half dozen shots with shotguns through the front door and others started a general onslaught with rocks and guns on the windows and doors. Emma Denny received a pistol ball in her face and was slightly hurt. Although this was an accident, it served to enrage the mob and the crusaders swarmed into the saloon. There they found Charles and Henry Schmidt. After driving them from the building through the rear door, the mob created havoc right and left. Cigar cases, mirrors and pictures were smashed and those that could not be reached with axes were shot full of holes. The mahogany bar was hacked to splinters, bottles were broken and barrel-ends knocked in. This was the work of but a few minutes.

The Schmidts ran to the front door and attempted defend their property. Rev. Charles Lowther prevented Chas. Schmidt from entering the place by striking him with an axe. The blow was a glancing one and made only a scalp wound. As he fell to the ground Henry Schmidt made a gun-play in defense of his brother that nearly cost him his life. One of the crusaders, following up the preacher's attack, had raised an axe to strike Henry Schmidt when a companion wrested the weapon from his hands.

The greatest excitement followed the raid and for a time serious trouble seemed likely and the mayor called a special meeting of the council to plan means of quelling the disturbance and providing against further outbreaks. Tonight they decided that all joints must close immediately. A mass meeting is being held tonight and an attack on the other joints is expected before morning. The jointists are defiant and bloodshed is feared.

This morning's attack was decided upon at a secret meeting held in the Baptist church last night. The crusaders met at the church by prearrangement this morning and marched directly to Schmidt's place, beginning the assault without the least warning.

INVITATION DECLINED

Opportunity for Suicide Does Not Seem Alluring to Three of the Chinese Leaders.

Peking, Feb. 13. At least three of the Chinese to whom Emperor Kwang Su sent a choice of suicide in pursuance of the demand for the powers for their punishment with death have declined to comply and the emperor has withdrawn his request that they should destroy themselves.

His majesty now telegraphs Prince Ching that when he agreed to the terms of the joint note the latter only required that the punishment fit the crime; and he argues that if the worst of the guilty deserve death the others should be punished in other ways.

The foreign envoys, on the contrary, say that even those who are least guilty deserve death and as there is no worse punishment all must suffer that penalty.

Unless the court changes its views no immediate settlement is possible.

MRS. T. C. PLATT

Death of the Wife of United States Senator After a Prolonged Illness.

New York, Feb. 13.—Mrs. Thomas C. Platt, the wife of United States Senator Platt, died early today at her apartments in the Fifth Avenue hotel, after a long illness.

Senator Platt, with his three sons and their wives, were at the bedside.

Mrs. Platt's affliction was a nervous affection of the heart, and despite the efforts of doctors and trained nurses that organ had been gradually growing weaker for some time past. Powerful heart stimulants were administered and under their influence the strength of the patient was sustained for weeks.

The patient became weaker within a week and another nurse was called in.

A change for the worse came yesterday. Mrs. Platt's heart showed every sign of giving out and every moment of the day and throughout the night she was watched by the nurses or the doctors.

HELD FOR ROBBERY.

Sioux City, Iowa, Feb. 13.—Jackson and Stovall, charged with the United States Express company robbery at Manila, Ia., has been bound over to the grand jury under $5,000 bonds. Parts of the contents of the stolen safe were found in Jackson's though none of the money was recovered. The sledge hammer and iron bar used by the robbers to open the safe were positively identified by two of the witnesses of the state, as being the property of Jackson.

NONE BUT CONFEDERATES.

Memphis, Tenn., Feb. 13.—The general executive conference of the Confederate union has adopted the resolution with regard to the invitation of President McKinley to be present at the reunion which will be held in Memphis in May, in which they declare that this committee recognizes the unwritten law of the United Confederate Veterans that neither the officers of said organization nor the host at the reunion has the authority to invite any other than a Confederate to participate in such reunions.

Paris, Feb. 13.—Today was fixed for the opening of the strike of the seamstresses in support of the tailors. Only a thousand girls, however, left work.

Bands of tailors and seamstresses paraded the Rue De La Paix all day long. There was no disorder until bands of students began to arrive as the evening advanced. These lustily cheered the girls, and the police then cordoned the streets.

ELKS' FAIR IN DENVER

One of the Finest Attractions Ever Given In the State.

EXCEEDS ALL EXPECTATIONS

Over 3,500 People in Attendance—Representatives from 25 States and 75 Lodges.

Special to the Gazette.

Denver, Feb. 13.—If there is a person in the state who does not take advantage of the cheap rate offered and attend the Elks fair in this city he will miss one of the finest attractions ever given in Colorado. The success has been far greater than was even anticipated, and if the opening night is any criterion to judge by the proceeds of the fair will amount to nearly enough to build the contemplated Elks' home.

Denver turned out en masse this evening to attend the opening of the Elks' charity fair and bazaar. Not only was Denver well represented but all sections of the country sent contingents of Elks to represent their many lodges. The fair is given in order to raise funds for the maintenance of the Elks' rooms in St. Joseph's hospital and also to furnish the nucleus for an Elks home, which is to be built in the near future.

Magnificent Attendance.

To comprehend the success of the opening night one must remember that over 3,500 people passed through the building, 25 states of the union were represented and 75 lodges sent their quota. Among the cities represented tonight were Cheyenne, Laramie, Salt Lake, Omaha, Council Bluffs, St. Louis, Chicago, New York, Louisville, Cincinnati, Dallas, San Francisco, Eugene, Ore., Sacramento, San Amonica, Indianapolis, Atlanta, Galveston and South Carolina, together with every lodge in the state.

The exercises began at 3 o'clock this afternoon with a street parade. There were over 400 men in line and they presented a fine appearance as they marched through the principal down-town streets and up to the old tramway powerhouse, at the corner of Colfax and Broadway, where the fair is being held. Aside from the Denver lodge, the Boulder lodge was best represented. The boys from the university city came down on a special train and brought with them all the paraphernalia that is supposed to be included in a good time.

Evening Addresses.

This evening appropriate opened addresses were delivered by Gov. James B. Orman, Mayor Henry V. Johnson, and Exalted Ruler Charles Zeitler. The fact that there were so many people in the building caused such a confusion, attributed entirely to the clinking of money as the change for sales was being made, as rendered what was being the audience to hear what was being said, only in such cases as they were in the immediate front.

The arrangement and decoration of the building presents one of the handsomest effects ever seen in this city. It is divided into 25 rooms or booths, each of which is looked after by a half score of handsome girls who willingly wait on all customers to the extent of their ability. The decorations of the room consist of the colors of the order arranged in such artistic style as to transform the old power house into a perfect fairyland of beauty and splendor.

Everything imaginable is kept for sale including ice cream, punch, whisky, flowers, groceries, fancy work refreshments and tickets to the Midway. The goods in the booths were donated by interested friends and amount in value to over $25,000.

Handsome Booths.

The first booth to the left of the door is the information bureau. It is handsomely decorated in the lodge colors, consisting of red, purple, white and yellow. The ice cream booth is festooned in such a manner as to represent northern glacier fields. The punch booth is made of scarlet and red materials and is lighted with red lights. The cigar booth has green for its color. This is one of the best patronized booths in the building and will no doubt materially assist in aiding the erection of the Elks home. Standing on a platform just back of the cigar booth is a young man who announces the various wonders of the Midway just in the rear of the bandstand. The Midway contains the usual collection, including the Albino woman, the ten handsomest women of the world, the sleeping beauty, Siamese twins, and all the other furnishings that go to make up a perfect Midway.

Next comes the grab-bag where the children are entertained while their parents enjoy the larger show.

Cross Roads Store.

The next in order is the old fashioned country crossroads store. It is one of the best representations of olden times at the fair. On the shelves might be seen all the goods that usually decorate such shelves, from the blue calico down to mouse traps. In the rear a ham hangs from a rafter while a large piece of slicing bacon decorates the top of a molasses barrel.

The fancy work booth represents more labor and time expended than any other booth. It is resplendent in beautiful samples of needlework, crochet and other household articles.

A postmaster who does not draw a salary stands behind a large general delivery window and charges a good round sum for every letter he delivers. Near the right hand side of the entrance door is a palmist's room and a wheel of fortune side by side where eager crowds stood all evening trying to win their fortunes or else have them told. It did not matter much which.

The fair will continue six days and will end next Tuesday night.

Colorado Springs Day.

Tomorrow is Valentine's day and is also Colorado Springs day. The Colorado Springs lodge will have entire charge of the exercises. A special train has been arranged for to bring 300 of the Springs people to this city during the afternoon.

The success of the fair can largely be attributed to the following persons: General Fred Walsen, chairman of the fair committee, Frank Bertschy, secretary of the committee, and Charles Zeitler, John H. Reddin, Harry D. Martin, Otto Harris, E. S. Arthur, C. F. Hoeckel, W. H. O'Brien, J. F. Egan, A. W. Dithloss, William Mayer, E. F. Lindholm, A. A. Curran, James H. Norris, Alexander Harris, all of whom constitute the present officers of the lodge.

THE NATION RAIDS

Leader of the Movement Contented Herself With Warning to Chicago.

Chicago, Feb. 13. Mrs. Carrie Nation left Chicago for Topeka tonight. She is under bonds to appear in the Kansas capital tomorrow for trial in connection with destruction of properties in that city. Before leaving she announced that as soon as she "had cleaned up things" at home she would come back here, and if things were not properly taken care of by the authorities, she and her friends would take matters in their own hands, and, to use her own expression, "we will make souvenirs."

Her meeting with the saloon keepers, which she had announced, did not materialize and in default of having them for an audience, she went once more to the saloon in State street that she visited last night and in which her grandson is manager. She delivered a talk to the people she found there a motley throng, embracing all classes. Mrs. Nation mounted a table and for 15 minutes talked with great energy, urging her hearers to abandon both the use and sale of liquor; and denounced in the most unmeasured terms all those who permitted its sale. As she left the place she accosted a woman who possessed a rich black eye.

"My, my, what a pity. Who gave that to you?"

"You better ask your grandson," was the retort. "He knows as much as I about the giving of it."

To this Mrs. Nation gave no reply and hastened to her carriage.

Previous to calling at this saloon she had made a stop in a place at 56 State street owned by E. D. Dreyfus. The proprietor remarked that he was a relative of Captain Dreyfus of the French army.

"How do you think that he would like to see you in this business?" she demanded.

The saloon keeper replied that he was making an honest living.

This called down a torrent of wrathful words and after informing him that he was a murderer, "Devil's scullion," etc., Mrs. Nation departed.

Tonight her meeting at Willard hall was attended by about 300 people, nearly all of them temperance people who applauded everything that she said. Her talk was not long and in closing she declared that she did not want any hatchets used, and that she believed in peaceable means of closing saloons as far as possible.

"Now I am going back home for a few weeks," she declared, as she closed, "and as I have not got through out there and it won't be long, I will be back here again and if the authorities have done nothing and are willing to do nothing we will see what is best to be done, and if it is necessary we will go to smashing things. We will make some souvenirs, I tell you."

She departed with the assertion that the rum power in this city and other large places in the United States was tottering to its fall.

STRENGTHENS THE LAW.

Topeka, Kan., Feb. 13. The state senate today passed a bill strengthening the prohibitory law by making the possession of liquor evidence of guilt.

It provides that the finding of intoxicating liquors in the possession of one not legally authorized to sell the same, except in a private dwelling house not connected with a place of business, shall be prima facie evidence that such liquors are kept for sale or use in violation of law; and the finding of a place fitted with a bar or counter or glasses or any paraphernalia usually connected with places where intoxicating liquors are sold, or in a place used for the manufacture or storage of intoxicating liquors or of a stamp showing the payment by any person of the United States internal revenue special tax for the sale of liquors at such place for a period not then expired, shall be prima facie evidence that the person or persons to whom the same was issued was maintaining a common nuisance at such place.

WARNING AT TORONTO.

Toronto, Kan., Feb. 13.—An enthusiastic temperance meeting held here today condemned the inaction of the authorities in suppressing joints. A resolution was adopted giving the joints just three days to close and threatening the use of the hatchet.

JOINTISTS TO ORGANIZE.

Topeka, Kas., Feb. 13.—The jointists of Topeka have decided to attempt a revival of the O. M. B. lodge, which flourished in the state a year or two ago. They expect to gain as many members as possible and make an effort to offset the organization of the temperance people.

Secret meetings of the temperance people were held in every ward of the city tonight.

ULTIMATUM TO THE MAYOR.

Topeka, Feb. 13.—The temperance people of Osage City, men and women, went in a body to the mayor today and peremptorily ordered him to close the joints. They intimated that they would if he failed. The mayor faithfully promised the people that the joints should be closed and gave the necessary orders to the city attorney and marshal. Part of the 80 joints of the city closed up as soon as the decision of the mayor was made known.

THE SENATE MADE LITTLE PROGRESS WITH ITS WORK

Washington, Feb. 13.—When the senate convened today the blind chaplain made a beautiful and touching reference to the death of Mrs. Thomas C. Platt, wife of the senator from New York.

During the greater part of the day the senate was engaged in executive session and in the counting of the electoral vote for the president and vice president of the United States. Late in the afternoon consideration of the agricultural appropriation bill was resumed but little progress was made. At a night session, beginning at 8 o'clock, the District of Columbia code bill was read.

At the opening of the session of the senate Mr. Clark (Wyo.) presented the credentials of his colleague, Hon. Francis E. Warren, reelected senator from Wyoming for a term of six years beginning March 4, 1901.

In reporting favorably a batch of private pension bills, Mr. Gallinger, chairman of the committee on pensions, gave notice to senators that it would be useless for them to introduce any more pension bills at this session as the committee on pensions could handle no more.

Mr. Money (Miss.) reported from the foreign relations committee a bill to prevent the sale of firearms, opium and intoxicating liquors in certain islands of the Pacific and asked for its immediate consideration.

Mr. Morgan (Ala) remarked that he dissented from the report and therefore objected to consideration of the bill.

A house bill authorizing the Alitia, Manatee and Gulf Coast Railroad company to build bridges across the Manatee river and Casparilla sound was passed.

At 11:40 the senate, on motion of Mr. Hawley (Conn.) went into executive session.

At 12:50 p. m. the senate resumed business in open session. A night session for the purpose of reading the District of Columbia code bill was agreed to. The senate then proceeded to the hall of the house of representatives to participate in the electoral count ceremony, resuming business at 2:05 p. m., when the result of the electoral count was reported for formal entry in the journal of the senate.

The Taft Report.

A resolution providing for the printing of additional copies of the report of the Taft Philippine commission was agreed to.

Mr. Pettigrew, while not objecting to the resolution, expressed the opinion that the American people were entitled to the facts with respect to the Philippines. These, he said, the Taft report did not contain. It was a partisan report made by a partisan committee and he alleged that it was designed to conceal the facts and convey a false impression to the people of the situation in the Philippines.

Mr. Foraker, chairman of the committee of Pacific islands and Puerto Rico, called up a bill relating to the retirement of the Hawaiian coinage and currency. He explained that the old Hawaiian government has issued $1,000,000 of silver coins in dollars, half dollars, quarters and dimes. Against $272,000 of the amount silver certificates had been issued, the $272,000 of silver being retained in the treasury. The purpose of the bill was to substitute silver coins of the United States for the Hawaiian coins, both being of the same weight and degree of fineness.

"The bill is all right," interjected Mr. Cockrell (Mo.) It was passed without further comment.

Senators Hale, Chandler and Tillman were named as conferees on the naval appropriation bill.

At 2:20 o'clock the senate again went into executive session. At 4:15 o'clock the doors were opened and consideration of the agricultural bill was resumed.

Adulterated Imports.

The amendment relating to the seizure of imported drugs, foods and liquors in case they should be found to be adulterated injuriously, which was discussed at length yesterday, was agreed to.

When the committee amendment, providing for the mapping of the soils of the United States was reached, Mr. Teller protested that no such project ought to be authorized. It would prove to be not only a gigantic task, useless as to practical results, but it would involve an expense ultimately of millions of dollars. He moved to strike out the provision. It precipitated considerable discussion and was not disposed of, when under its special order the senate at 5:30 o'clock took a recess until 8 o'clock.

The District code bill was read from 8 p. m. to 10:25 o'clock, when the senate adjourned without completing the reading of the bill.

NOMINATIONS DISCUSSED IN EXECUTIVE SESSION

Washington, Feb. 13.—The senate held two executive sessions today with the result that all the presidential nominations to the office of brigadier general were confirmed. The nominations which caused discussion were those of Generals Bates, Wood, Grant and Bell.

Senator Pettigrew criticized General Bates' nomination because the officer had negotiated the Sulu treaty, which treaty he attacked sharply.

Senators Teller and Rawlings also joined in the criticism of the Sulu treaty. They referred especially to its recognition of the institutions of slavery and polygamy, which they claimed were repugnant to the tastes of the people of this country as well as to the Constitution. No one, however, made objection to General Bates' confirmation when the time for a vote was reached.

The criticism of General Wood was confined to the fact that his military record is not extended. Senators Bates of Tennessee, and Jones of Arkansas, objected to the nominations of Generals Wood, Grant and Bell on the ground that their nominations constitute a breach of the rule of seniority in the army, and exceptional emphasis was laid upon Generals Wood's nomination on that account. It was held to be unfair to other officers who had seen long service in the field. Senator Pettigrew contended that General Wood was without practical experience in the art of war and as a leader of men. He said the general had gone into the army as a contract surgeon and had done very little fighting. If, he said, that sort of favoritism was to be continued the West Point academy might as well be abolished.

Among those who spoke in support of the president's right to appoint as he had done were Senators Cockrell and Pettus, both Democrats, who said that as the law conferred the discretion of selecting officers regardless of the rule of seniority, and as the selections in this case appeared to have been wisely made, they could not see their way clear to cast their votes against his nominations in this particular instance.

Senator Lodge upheld the nominations. He said that criticism of a man who had done so much for the country as General Wood had done at a critical time, is preposterous.

The explanation was made on behalf of the president that he especially desired to reward General Wood for his services in Cuba and that he thought his rank should be high in case he should be called to discharge other high offices in the future. No roll call was demanded on the confirmation of nominations.

BOERS WHO URGE PEACE.

Cape Town, Feb. 13. Piet De Wit, who arrived in Cape Town yesterday to engage the Afrikanders in the peace negotiations, has an appointment Friday or Saturday with Mr. Theron, president of the Afrikander bund, who is coming here for the special purpose of discussing peace possibilities. Mr. De Wet, on behalf of the Boer peace committee, desires the Afrikander bund to announce clearly that the invaders can expect no aid from the Cape Dutch and then to send a deputation to Mr. Steyn and Gen. De Wet to endeavor to prevail upon them to surrender. He says he is confident Commandant Louis Botha will surrender if Steyn and De Wet would do so, and the surrender will be practically without conditions.

COL. SHAW'S FUNERAL.

Watertown, N. Y., Feb. 13.—The remains of Colonel Albert D. Shaw, congressman from this district, and late commander-in-chief of the Grand Army of the Republic, were interred in Brookside cemetery today, with military honors. After private funeral services at the family residence, the body of Colonel Shaw laid in state at the armory where thousands of citizens viewed the remains.

Besides the local Grand Army post and social and political organizations of Watertown with which Colonel Shaw was connected, there was a large representation of Grand Army men from all over northern New York in attendance on the funeral service. National Guardsmen fired a volley over the grave.

THE DEFENSE OF HAMILTON

The Prisoner Was Put on the Stand In His Own Behalf.

HIS STORY OF THE AFFRAY

He Declared It Was Impossible That He Should Have Killed Day—Outline of Defense.

Minneapolis, Feb. 13.—It was the defense's turn today in the trial of Frank H. Hamilton for the murder of Leonard R. Day. His chief counsel, Robert L. Penny, outlined to the jury what he expected to prove. He opened with a sketch of Hamilton's life, who is 24 years old. At the age of 16, after the death of his father, his mother having died in his infancy, it was discovered that he had tuberculosis and it was necessary to send him to Colorado for treatment. It took six years of climate and whisky to effect a cure. Mr. Penny declared that it would not be surprising if he had formed the habit after such a course.

Turning then to Day, Mr. Penny pointed out that he was from a wealthy family and that his every whim and desire were gratified.

For two nights before his death he had been out all night carousing. On the night in question he had gone to the theater with boon companions and then to a wine room, where two women joined the party. Two of the men left early, while Day and a companion continued to drink with the women. Later he had gone to the West hotel and begun the game of pool with some friends there. These men with whom he was playing were now practically the only accusers of Hamilton. What wonder that, from instincts of self-preservation and to clear their own skirts of any possible suspicion, they should lean in their evidence toward the accusation of the defendant.

Hamilton on that night had had a number of drinks just how many he does not know. Finally, when the saloons were all closed, they had gone to the West, not with any idea of finding Day, but because Evans wanted another drink. He had no trouble with Day, who had never done anything to him. He had met Day before, but not for a fortnight or partly so. He remembered shaking hands with Day. "Everybody there," said Mr. Penny, "was intoxicated, say what they will. Hamilton remembers receiving a blow on the face or jaw, and shortly thereafter he received a blow on the head from a cane, cue or club, and this will be proved.

"From that time on he was not conscious of anything until he found himself on the floor near Day's side. Of the crime he says 'I knew I did not do it. I could not do it in the very nature of things.'

"A knife has been shown you here, gentlemen. That was not the knife of Frank H. Hamilton. He never had such a knife. He had no weapon of any kind except a small pocket knife. We will show you by the very best evidence that Day carried just such a knife as the one produced at this trial. There was a general row that night, and more than one knife was used, and we will be able to show this.

"The clothing of one man who was present that night was bespattered with blood and cut, apparently with a knife, and was taken the next morning to a tailor repair shop to be cleaned and repaired. This clothing was not that of Day or Hamilton."

The First Witness.

S. K. Jackson, former clerk at the West hotel, was the first witness called. He said that Day, whom he had known intimately, spent a week in Milwaukee at a hotel, where witness is now employed. Day had made the acquaintance in Minneapolis of a girl in the chorus of "The Burgomaster" company and had followed her to Milwaukee and had afterwards gone on to New York. Jackson met him again in Minneapolis a few days before the stabbing. Jackson testified that Day had said that during his (Day's) absence Hamilton had been keeping company with the girl and he was going "to do him up."

Jackson testified that Day carried a large knife with a long handle. On cross-examination Jackson admitted that he had taken great interest in the case, knowing all the parties except Hamilton and having been at the West hotel four years.

Hamilton on the Stand.

The defendant himself, Frank H. Hamilton, then took the stand. He sketched his life substantially as his counsel had done.

Continuing, Hamilton said he had never touched a drop before he went to Colorado. He had come to Minneapolis in March, 1899. He did no work until the summer, when he went to work on the Journal, doing feature or space work. In September he was forced to return to Denver because of ill health. He remained in Denver until April, 1900, when he returned to Minneapolis to go to work for the Times. He had remained on the Times until Nov. 25, when he was arrested on the charge of murdering Day. Hamilton described in detail his movements on the eventful day. He came back to the office at 10 o'clock that night and turned in his copy. At 11 o'clock he went across the street to Starr's saloon, where he had several drinks. He realized that he was getting drunk. After the saloon closed they went to the West hotel with some associates to "get one more drink" as one of them suggested. Hamilton stated positively on direct examination that he had no expectation of seeing Day. He denied that, so far as he was concerned, there was any ill-feeling between them. After he had entered the West hotel he found himself talking to Day, but could not remember whether they had been introduced at that time.

"I think Day made an insulting remark at which I took affront," Hamilton continued, "and I asked him if he would fight. He said I was too drunk. Then Charles Force came up and said 'I'll fight you.' The next thing I knew Day and I were clinched and I threw Day down. Then we got up. I remember that there was a mix-up around us. Then someone struck me with a club or a piece of iron on the forehead and I lost consciousness. I knew nothing of what happened after that until I found myself chafing Day's hands and later when the officer took me into the barroom."

Hamilton was shown the blood-stained knife. He emphatically denied ever having seen or owning it. He recalled no conversation with ex-Patrolman Rooney, who made such a damaging statement yesterday as to Hamilton's confession.

Cross Examination.

County Attorney Boardman gave Hamilton a rigid cross examination, but showed no disposition to embarrass him unnecessarily. The defendant's composure and assurance increased accordingly. To many of the questions he answered:

"I don't know."

He admitted that he and Canfield planned a hunting trip, but denied that he had bought a hunting knife in preparation for it as the trip never got beyond the talk stage.

Asked why he grappled with Day he said it was because Day said something offensive. What it was he did not remember, but he knew it made him angry.

Mr. Boardman asked why he could remember so many things and not others. Hamilton replied that he told all he could, but that the blow dazed him so that he knew no more.

"I am sure I did not kill Day," he said.

"Why?"

"Because I know myself. It was impossible for me to have done so."

An Expert's Opinion.

Dr. Charles A. Erdman, anatomist in the medical department of the state university, gave it as his expert opinion that not all of the wounds received by Day were by the same instrument. The wound in the head was not made by the big knife. The fatal wound, he maintained, which severed the subclavian artery, was downward and forward and must have been struck from behind, over Day's shoulder, or if struck from in front, the point of the knife must have been held toward the person who held it.

The attempt of the defense to introduce the evidence of a tailor who had repaired and cleaned the blood from Ralph Gary's clothes after the affray, was blocked by the state's objection.

Mars Neilson, a hack driver, who had often carried Day around on his nocturnal jaunts, testified to having seen a knife in Day's possession less than a year ago which closely resembled the one in evidence.

Dr. William B. Murray, the physician who reach Day's side just before he died, testified that Hamilton had helped him place the body on the billiard table. Day's clothes were open to the waistband and he was told that Hamilton had opened them.

He noticed Hamilton's wounds, all on the left side of his face and believed they were all caused by one blow from some instrument.

Rooney's Story Controverted.

Dr. Murray controverted Patrolman Rooney's confession story. He declared that he was near during all the time Rooney was present until the defendant was taken away and that he heard every word that was said by Hamilton or Rooney. Hamilton, instead of saying "I killed him and am prepared to take the consequences," as Rooney testified, said "I will go with you, and if I have done anything I am prepared to take the consequences."

Witness denied in detail that Hamilton had made the various statements alleged by Rooney, and stated that if such things had been said he certainly would have heard them. Witness was positive of this.

Another point made by the defense through Dr. Murray was this: He said he examined Hamilton's hands and cuffs immediately after he arrived and found them without blood.

Shooting at a Larimer Street Gambling Joint.

JAMES MARSHALL ADMITS IT

Alonzo Killam the Victim the Police Department Investigation—Recent Activity in Real Estate

Denver Bureau
Colorado Springs Gazette

Denver Feb 1 —James Marshall a notorious character shot and perhaps fatally wounded Alonzo B Killam a smelter employe at 1861 Larimer street early this morning The place where the shooting occurred is a gambling joint The shooting was the outcome of a law suit Marshall and a man by the name of Heatley have been conducting a gambling house at the above number The owners of the building have made repeated attempts to get them out, all of which have proved fruitless This morning Killam went with William Arnett a deputy sheriff to serve papers on the men notifying them to vacate It was still dark when they arrived Marshall had just locked the door of the gambling room when he heard the men walking quietly up the stairs. He immediately opened fire with his revolver The first three shots struck Killam, one struck his forehead glanced down, shattering his jaw and came out at his throat The second struck him at the left side went entirely through his body and came out under the right arm pit The other went through his left arm above the elbow A squad of police were soon on the scene and made an attempt to arrest Marshall He calmly informed them that owing to the darkness it was impossible for him to tell whether they were officers or not. He told them if they attempted to come up stairs he would shoot and the best thing for them to do was to stay where they were until daylight when he would surrender to them They took him at his word and waited He was afterwards arrested and confessed his crime At a late hour tonight Killam was reported by the county hospital officers to be resting easy with an even chance for recovery.

EXPENDITURES DENOUNCED BY MR. BELL AND OTHERS

Washington Feb 13 The house [illegible] today excepting an hour and a half consumed in counting the electoral vote and promulgating the result of the presidential election, to the sundry civil appropriation bill General debate upon this measure was completed but little actual progress was made with the bill Fifteen of the 134 pages of the bill were disposed of

The sundry civil bill was taken up when the session opened and Mr Bell (Colo) a member of the appropriation committee began a [illegible] of the extravagance of the present congress He said the people had become alarmed at the rapid growth of expenditures So callous had congress become to the vast increases in the appropriations he said that it was considered almost disreputable to call attention to the extravagance of the government He produced figures to show that in a single decade the per capita cost of running the government machinery had increased from $4 7 to over [illegible]

Mr Cochran of Missouri also made an attack upon the recklessness of the appropriations in this congress He declared that the total for the next year if reckoned in gold would exceed the appropriations of 1864 when the federal government had 1 200 ships on the sea maintaining a blockade from Galveston to the Chesapeake and one million men on land engaged in the most tremendous military enterprise in the history of the age Later speaking of our policy in the Philippines and China Mr Cochran said

Talk about progress and Christianity Is progress and Christianity mean marching under [illegible] and the swords of Christian soldiers dripping in the blood of plundered people it is time to quit or fling the masquerade away and say progress has turned freebooter Christianity slumbers and God is dead (Democratic applause)

Mr Cochran argued that from any standpoint the game in the Philippines was not worth the cost

We have already said he spent money enough there to build the Nicaraguan canal to fortify every foot of its course to construct what new warships we need and we are today no nearer peace than when the first gun was fired

Mr Richardson (Tenn) also commented upon the vast total at this session which he said would reach $800 000 000 Four years ago when President McKinley's administration began the annual appropriations were about [illegible] He conceded that appropriations would increase but why he asked this prodigious increase of over $300 000 000 The war had been over two years and could not be charged with these increases for the increases were not confined to the army and navy appropriation bills There was an increase in every one of the appropriation bills

Did you not vote for the river and harbor appropriation bills? he was asked

What if I did? replied Mr Richardson I could not stand here and hold back appropriations for liabilities that have been created

Mr Moody (Mass) challenged Mr Richardson to point out a single appropriation in the sundry civil bill that could be omitted

Mr Richardson said he would do so

While the gentleman is talking about cutting down expenses observed Mr Moody I will ask him whether he did not vote for a soldiers home in Tennessee

Mr Richardson—I did It passed unanimously I believe

Mr Moody—It did not I voted against it Did not the gentleman also vote for the Bowman act claims?

Mr Richardson—I did

Mr Moody—The gentleman and I agree on the necessity for holding down appropriations The trouble is that he always votes for them while I vote against them

Proceeding Mr Richardson pointed out as one of the appropriations which should be omitted $136 000 for the rent of temporary quarters for the New York custom house and criticized Mr Gage for his course in connection with the sale of the old custom house

Mr Corliss (Mich) spoke in favor of the construction of a Pacific cable

Upon points of order made by Mr Olmstead (Pa) the appropriation of $115,000 for a tender for the inspector of the Ninth Lighthouse district $110 000 for a tender for the engineer of the Ninth lighthouse district and $120 000 for a tender for the Tenth district $100 000 for a tender for the Thirteenth district and $50 000 for a tender for the Sixteenth district were stricken from the bill

Mr Olmstead said these appropriations were not authorized by law and he was simply following the teaching of the chairman of the appropriation committee in standing by the letter of the rules

At 5 45 the house adjourned

FIGHT LIKELY TO BE POSTPONED FROM FRIDAY

Cincinnati Feb 13—There is every indication that the proposed boxing match will not be pulled off at Saengerfest hall next Friday

There is as much doubt about the time and place as there is about the decision of Judge Hollister that is to be rendered tomorrow noon Sporting writers from all over the country arrived today and besieged the quarters of the fight managers but nobody could make any definite statement As soon as Judge Hollister renders his decision these managers will have a conference and will lay their plans for the future They promise to make a statement for the public as soon as they can in the afternoon

It is understood that if Judge Hollister grants the application for a permanent injunction the postponement will be for some weeks so as to allow time to carry the case through the circuit court and thence to the supreme court for final settlement If Judge Hollister shall refuse an injunction on the ground that a court of equity has no jurisdiction in such cases or on any other grounds the postponement is not likely to be for more than one week and it may be only to the first of next week

While there are reports about Governor Nash having three or four regiments under marching orders it is not believed here that any troops will reach the city this week at least

All concerned in bringing off the fight insist that they will not attempt to proceed if a permanent injunction is issued against them and the general opinion is that such will be the rendering of the court

Jeffries and all the members of the large party that are with him at his training quarters came into the city tonight from Price Hill and enjoyed a social session with the newspaper men

The disappointment of the visiting sporting men as well as the pugilists and their managers is very apparent There is much discussion as to what is to be done for the preservation of championship and other pugilistic contests as one of the branches of sport

My Condition Could Have Been No Worse.

In the fall of 1897 I contracted Blood Poison I tried three doctors but their treatment did me no good I was getting worse all the time my hair came out ulcers appeared in my throat and mouth my body was almost covered with copper colored splotches and offensive sores I suffered severely from rheumatic pains in my shoulders and arms My condition could have been no worse only those afflicted as I was can understand my sufferings I had about lost all hope of ever being well again when I decided to try S S S but must confess I had little faith left in any medicine After taking the third bottle I noticed a change in my condition This was truly encouraging and I determined to give S S S a thorough trial From that time on the improvement was rapid S S S seemed to have the disease completely under control the sores and ulcers healed and I was soon free from all signs of the disorder I have been strong and healthy ever since

FAMED AS A LAWYER.

Mr. N. F. Heitman, the Famous Lawyer of Kansas City, Talks About His Case.

Strong Words Telling How His Health was Restored by Dr. Greene's Nervura.

MR. N. F. HEITMAN, cured by Dr Greene's Nervura.

Mr. N F Heitman is one of the foremost lawyers of Kansas City, Mo. He is a living example of what a man of ability, energy and distinction can accomplish for himself Mr. Heitman has risen, step by step, by hard work from a poor farmer's boy, to the highest pinnacle of fame in western legal history. He is one of the most prominent and highly respected members of the Kansas City Bar, is a graduate of the University of Virginia, was awarded the oratorial medal at this famous university, and also received the highest average grade in his class of a large number Mr Heitman ascribes his success to keeping steadily at work Of course everybody knows that the person who applies himself diligently to hard work in order to gain a coveted honor must work not only from nine o'clock in the morning to four in the afternoon but from sunrise to sunset and sometimes way into the night No one can do this for any length of time without breaking down their health completely This is just what happened to Mr Heitman, but thanks to Dr. Greene's Blood and Nerve Remedy, he was rescued and restored to good health by its use There is nothing which will prevent attacks of the grip, or if you have it, there is nothing which will drive it away so quickly as Dr. Greene's Nervura Those who have had the grip should know that their systems are always left in a weakened condition after it Dr Greene's Nervura will restore them to perfect health by purifying the blood and building up the entire body.

What stronger words are needed to convince you of the wonderful curative powers of Dr. Greene's Nervura than these from Mr. Heitman, who says:

"From constant attention to my business, together with a weak stomach, I was completely unfit for the strain that comes to a man in my profession, and I have found nothing that has so generally helped me and given me back my natural energy as Dr. Greene's Nervura, blood and nerve remedy. I have taken several bottles and can say nothing but good about the results."

If you believe at all in the truth plainly spoken, you cannot fail to take counsel from the words of Mr Heitman He was sick and was cured. If you are sick, and most people are at this season of the year you should take this wonderful remedy Remember it is the prescription of Dr Greene one of America's most famous physicians Dr Greene can be consulted absolutely free of charge either personally or by mail If you are not within calling distance of his office, 35 W 14th St, New York City, write him a letter describing your case fully and he will tell you what to do to get well

NEWS AND NOTES OF COLORADO CITY

At the next meeting of the Women of Woodcraft there will be an initiation of about forty new members. The order is in a very flourishing condition and is receiving new applications for membership all the time.

C. N. Snyder went to Florence yesterday on [illegible].

The remains of Grant Worley who died on board the transport en route between Manila and San Francisco did not arrive in the city yesterday as expected. It is thought now that they will be here today as they have had plenty of time to come from California.

There are a good many social functions booked for the city during the next week or two. It seems as if every organization in the city is going to have a party or something in that line in the near future. The styles of entertainment run from a poverty party to a fancy dress ball with basket socials and dances in between and the greatest lover of amusement cannot help but find something to his liking among them. Next Saturday will occur the Mill Men's ball in the A. O. U. W. hall. Next Monday night the B. A. Y. will give a dance in the A. O. U. W. hall and there will be a poverty party and old fashioned spelling match in the W. C. T. U. hall. On the 22nd the ladies auxiliary of the O. R. C. will give a [illegible] ball in the K. of P. hall and next Wednesday night the Women's Guild of the Church of the Good Shepherd will give a basket social to which everyone is invited.

There was another attempt at burglary in this city Tuesday night and although the robbers did not secure much they probably would have made a good haul if they had not been frightened away. W. H. Everett who owns a grocery store on Colorado avenue between Fourth and Fifth streets is the loser by the attempt but not to any great extent. Mr. Everett generally goes to the library to read every night before going to his room which is in the second story of the building occupied by the grocery store. [illegible] about [illegible] o'clock he was returning from the library when he noticed that the lights in the store were out. Thinking something might be wrong he tried the front door but found it locked and [illegible] that he could not open it with the key. He then hurried around to the rear door but the burglars had fled leaving nothing with which they might be identified except a crow bar. The latter was used to pry the back door open this being the way entrance was gained to the building. The things stolen were a sack containing $4 in pennies, some small change to the amount of $2 and some boxes of cigars. There was no safe in the store for the thieves to crack. The police are working on the case.

Mr. F. Mickels and family have moved into the old Flinn house near the Garden of the Gods station between this city and Manitou. Mr. Mickels purchased this property some time ago but has just lately taken possession of the place.

Mrs. Jack Richards and little daughter have returned from a visit to Missouri. They have been gone about six months and a number of friends will be glad to hear of their return.

Mrs. Kuhen has gone to Victor, Colorado for a few days visit.

Postmaster Morgan returned from Denver yesterday morning where he has been for a couple of days on business.

This season there is a large death rate among children from croup and lung troubles. Prompt action will save the little ones from these terrible diseases. We know of nothing so certain to give instant relief as One Minute Cough Cure. It can also be relied upon in grippe and all throat and lung troubles of adults. Pleasant to take. Dr. Ellison's Sulphur Cough Cure

This remedy has long been used by the doctor in his practice for the cough incident to consumption, asthma, bronchitis, la grippe, diphtheria, coughs, colds, hoarseness, loss of voice, sore throat, whooping cough, influenza, etc. It will not dry up a cough or cold but aids nature in throwing off the poisonous mucus produced from diseased lungs or a cold, heals the membrane and restores nature to a healthy condition. It is prompt in its action and absolutely harmless. There is no morphine, opium, ipecac or injurious drug in its composition. In croup, whooping cough and diphtheria it liquifies the tough tenacious mucus and aids its expulsion from the system. Price 50 cents a bottle at the office, 24 North Tejon (over Craigue's grocery store.)

COLDS

The quickest relief, for a cold, is by Scott's emulsion of cod-liver oil.

We all have colds, you can try it and see. You will find the edge taken off in a night; and, in three or four days, you'll be wondering whether that cold amounted to anything anyhow.

That's relief. If you tackle it quick, the relief is quick and complete, if you wait till the cold is in full possession of head and lung, why, of course, the relief is quick if it comes in a week.

A little emulsion won't clear and restore your whole breathing-machine in a minute; don't be looking for miracles.

We'll send you a little to try, if you like.

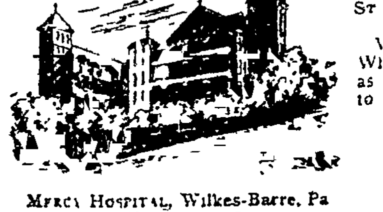
Over 2000 Hospitals

Duffy's Pure Malt Whiskey is the only pure reliable alcoholic stimulant to administer to patients in cases of grip, consumption, dyspepsia, general debility, nervousness, weak heart and low fevers.

MONTEVUE HOSPITAL, Frederick, Md.
DUFFY MALT WHISKEY CO.
Gentlemen: I has been about one year since I first began to use Duffy's Pure Malt Whiskey both in prescription and laboratory work in this institution. I find it a most effectual invigorating alcoholic stimulant and prefer it to any other as I believe it to be absolutely pure. Its action on the general economy and the entire system is more effective than any other whiskey I have tried and our patients take more kindly to it. As long as the quality remains at the present standard I shall always use it wherever an alcoholic stimulant is required, especially in that class of convalescents who need what we call predigested foods. I find from experience that Duffy's Pure Malt Whiskey acts gently, not vigorously, on the digestive system. We will always use it to the exclusion of all others on account of its absolute purity and the excellent results we have received from its use. I am Very kindly, H. P. FAHRNEY, M. D.

Use Exclusively

Duffy's Pure Malt Whiskey has brought the blessing of health to thousands of homes during the past forty years. There is none just as good as Duffy's. The dealer who says so is thinking of his profits, not of your health.



ST JOSEPH'S HOSPITAL, 1215 Walnut St., Reading, Pa., July 6, 1900.
We are using Duffy's Pure Malt Whiskey in the St Joseph's Hospital as a stimulant, because we believe it to be the purest of whiskey.
G. F. NEWBY, M. D.
Res. Physician to Hospital.

MERCY HOSPITAL, Wilkes-Barre, Pa., November 28, 1900.
Dear Sirs: The use of Duffy's Pure Malt Whiskey for irritable stomach has proven it to be a thoroughly reliable and satisfactory article and one always to be depended on.
Respectfully,
H. A. FISCHER,
Resident Physician.

EASTON HOSPITAL, Easton, Pa., Oct. 26, 1900.
I have used Duffy's Pure Malt Whiskey in my practice and have always found it to do good work. I believe it to be perfectly pure. It is retained by the most irritable stomach.
H. D. MICHLER, M. D.

Duffy's Pure Malt Whiskey is a form of food already digested. For the convalescent or the weak and tired a teaspoonful in half a glass of milk three times a day will soon build up strength and energy. It can be retained by the most sensitive stomach. 7,000 doctors prescribe it.

Duffy's Pure Malt Whiskey

CAUTION. We wish to caution our patrons against so called "Duffy's Malt Whiskey" sold in bulk and unsealed bottles. Duffy's Pure Malt Whiskey is sold in sealed bottles only. If offered for sale in bulk or unsealed bottles it is a fraud. Insist on getting the genuine. Refuse substitutes.

The distinguished writer of the following letter has served her beneficent mission at the head of some of the largest curative and charitable institutions in the country.

It gives me great pleasure to recommend Duffy's Pure Malt Whiskey, which I have used for consumptives in the last stages of the dread disease. Aside from its medicinal properties it is very mild. The patient can retain it when all other stimulants fail. I recommend it to all. MOTHER HIERONYMO, Rochester, N. Y.

FREE. If you are sick and run down write us. It will cost you nothing to learn how to regain health, energy and vitality. Medical booklet and testimonials sent free.

REPUBLICAN VITALITY.

SOME COLORADO DEMOCRATS are endeavoring to encourage the idea that there are two factions in the Republican party of this state. As a matter of fact there is nothing in the present political situation to warrant such a statement, but even if it were true we fail to see how any Democrat can find in it any partisan encouragement or satisfaction. Factions are sometimes dangerous to party success when they arise from the tyranny of leaders whom long continuance in office has made indifferent to the popular will, or when personal rivalries are carried beyond the nominating convention to find their outlet in treachery in a campaign. But differences of opinion or even "factions" in a fair use of the word, are in a great many cases a most satisfactory evidence of vitality and strength, and this is especially true when a party is regaining its forces after a period of depression and weakness.

We know of no factions in the ranks of the Republican party of Colorado, but we do know of very evident signs of life and growth, which cannot be mistaken, and which are of highest significance for the future of the party in this state.

Evidences of political activity immediately following a presidential campaign are unusual, so much so as to be almost unprecedented. State elections are not to be held for two years, congressional elections are equally distant, and even the county elections do not come until next fall. And yet in the three months since the last election there have been notable developments in the Republican ranks and a strengthening of the party along all lines of progress. A notable instance of this has been the two banquets recently held in Denver, numerously attended from all parts of the state, and both notably successful. Comparatively few persons were present at both of these gatherings, but the spirit that dominated them both was the same, the spirit that makes it the chief object of political action to secure Republican success, the spirit that will spare no effort to accomplish that result, for the welfare and the credit of the state.

There is a story told concerning one of the great battles of the American civil war how flying and defeated troops were rallied by a brave leader and of how the cry of "We're going back!" brought renewed courage and became the foreword of victory.

That is the point which the Republican party of Colorado has now reached; that is the spirit that dominates its ranks. And with such a spirit maintained, victory becomes assured.

SHERIFF GODDARD'S PROCLAMATION.

THE SHERIFF of this county has taken advantage of the presence in the El Paso jail of a negro prisoner brought from another county and of rumors of an attempt to lynch him, to issue a somewhat remarkable proclamation, in which he declares in brief that any such attempt will be resisted to his full power, and that all people may feel assured that so long as he occupies the office of sheriff every prisoner will receive full protection and there will be no lynchings in El Paso county.

Under ordinary conditions such a proclamation would be unwarranted. Protection to prisoners is the plain duty of the county authorities, and to the sheriff especially is committed their defense from mob violence. Under ordinary circumstances, we say, this proclamation of Sheriff Goddard's would be wholly uncalled for, as much so as if the county treasurer should issue his proclamation that he intended to steal no money, or the county judge that he would accept no bribes, and in ordinary times such a proclamation by a sheriff could only be taken as evidence of a desire to win favor with a particular class of voters by impressing them with the idea that he was doing a great thing by performing the plain duties of his office.

But the times and conditions in Colorado are not ordinary ones. Within the past few months in this state we have witnessed the growth and prevalence of a sentiment that openly justifies mob violence, that declares that a criminal known to be guilty has no legal rights that any one is bound to respect and that he has no moral rights and that the task of society must be to find outside of the law some form of punishment that may most nearly approach in agony the sufferings inflicted upon his victim. We have seen officials of the law from high to low making themselves the servants of the mob and employing unusual efforts in order to make sure that its prospective victim shall be delivered into its hands. We have seen entire communities the participants either in fact or by approval in scenes of savage torture and the public press giving its approval to the acts of a mob that was for the moment outside the circle of civilization.

Under such conditions we cannot stop to weigh motives or to consider the object sought. It is right and fitting that every right-thinking official in this state should take advantage of every reasonable opportunity to declare his belief in the supremacy of the law and his intention to resist at any cost the savagery of lynching.

And the Gazette believes it to be a part of its public duty to commend most heartily and unreservedly the words of Sheriff Goddard of this county as setting forth a high standard of right regarding a matter which ought not to give room for any difference of opinion.

And we desire to say further that if at any time Sheriff Goddard or any other sheriff of this state should find it necessary to carry into action the policy that he has announced, he would find himself endorsed by the best public sentiment not only in this state but throughout the nation, and by this act he would do much to redeem our name from the obloquy that has come upon it by virtue of the unrestrained fury of the mob and the cowardice and recreancy of public officials.

Chicago people refuse to pay good money to hear Mrs. Nation lecture. Quite right. The joint smasher should stick to her hatchet.

Of Mrs. Nation's expressed intention to destroy all the saloons of the world, it may safely be said that she has undertaken a very large contract.

THE SUPREME COURT DECISION.

THE DECISION of the supreme court of the United States in regard to the most important question of whether the Constitution follows the flag is expected to be made some time next week. But after the vote is taken it will require two and possibly three weeks for the decision to be written out by a member of the court assigned for that purpose. As this is one of the most important cases ever decided by that court, a great deal of care will be taken in the presentation of the result and the arguments upon which it is based. It does not seem likely now that the decision will be given out in detail before the adjournment of congress and it will certainly be too late to permit the passage of any new legislation based upon it.

As to the decision itself, that is something upon which even the most knowing cannot express any certain opinion. Walter Wellman who is usually one of the best posted of the Washington correspondents, writes to the Chicago Times-Herald:

"As to the nature of the forthcoming decision I see no reason to change my former opinion that it will be almost if not quite unanimous in favor of the government's contention. The information upon which my former dispatch to this effect was based came from a trustworthy source, and it has since been corroborated by other information of the same tenor, though of different origin.

"In this connection it is worthy to note that in certain circles where this case has been much discussed, and where the justices of the supreme court are often met at dinner, there was a few weeks ago a settled fear that the decision was going to be adverse to the government. This has now given way in the minds of the same men to a great confidence in the reverse result.

"These are only straws, it is true, but even such slight indications are eagerly seized upon in political circles here, where there exists a most profound interest in the celebrated case."

Outside of such comments as these from the Washington correspondents, the newspapers generally very properly refrain from opinions upon the coming decision or the merits of the case. There is no benefit to be derived from the repetition of familiar arguments, and the only thing to be done is to wait as patiently as possible for the decision of the court, which will be rendered in due time.

THE FRIARS' LANDS.

A CASE will soon be started in the courts at Manila that is of the greatest importance to the future of the islands. In accordance with a decree of the Philippines commission the San Jose college has been placed in the hands of five trustees who are instructed to bring suit within 30 days to try the right of possession to the properties and estates of the college before the Philippines supreme court. In the meantime the order, issued by General Otis while military governor, closing the college is revoked and the courses will be resumed under the new trustees.

As recently explained in these columns, the question of the friars, their lands and their privileges, is one of the most perplexing of those with which the Americans in the Philippines have to do. It is of the greatest importance that it should be settled in the near future and that it should be settled in a way that is consistent with American ideas of civil and religious liberty. There is no disposition on the part of any sensible American to deprive the friars of any of their just possessions, and their rights in this matter are secured by the treaty of peace with Spain. But the situation is a more complex one than that, and the difficulty is to determine what is just and right, for the friars and for the Filipinos, and to reconcile conflicting interests and to adjust relations that have been embittered by long years of oppression and abuse.

It is by no means certain that the Filipino supreme court will be able to reach a satisfactory settlement of this important question. It will undoubtedly be heard from in congressional discussions, and it is not impossible that it may come to be a disturbing element in American politics in the near future. The San Jose case therefore will be watched with much interest in the United States as well as in the Philippines, and there will be a very decided feeling of relief if its result is to settle in any considerable degree the troublesome question of the friars.

IMPENDING REVOLUTION.

AGAIN WE ARE informed that Spain is on the edge of a bloody revolution.

That is where Spain has been for many years past, and in fact it is probable that Spain would not feel quite at home anywhere else.

A nation can get used to hanging on the edge of a bloody revolution as well as to other things. Spain has been there for years, and so has Italy, and so has Austria-Hungary, and so has Turkey and so have several other countries which have in spite of impending revolutions continue to preserve a fair amount of national solidity and permanence. Once in a great while, to be sure, something drops, and possibly that may be what is going to happen to Spain, but the probabilities are that Spain will continue to totter on the brink and that future changes of rulers, if such changes do come, will be as little productive of genuine reforms as former revolutions have been. Unless a genuine reform spreads through the people, the change of dynasty or of the form of government does not amount to much.

ABRAHAM LINCOLN AND THE DEMOCRATS.

THE ADMIRATION of certain Democrats for Abraham Lincoln deceives only themselves. The general public is perfectly competent to judge whether the Democrats who opposed him in 1861 and those who laud him in 1901 are similar in their principles, purposes and modes of action or whether the progress of years has brought such a change that this party has abandoned its errors and now stands for the things it diametrically opposed at that time.

As for Lincoln himself there is not any doubt at all that he would stand now, as he did then, the uncompromising friend of liberty and law, and the uncompromising foe of dishonesty, treason, cant and demagoguery.

That there are Democrats, ex-Confederates like Henri Watterson, who are perfectly sincere and honest in their admiration of the "first American" there is no doubt and to these the country listens with respect and pleasure.

But there are "copperheads, and dough faces" and demagogues in 1901 as there were in 1861 and it is when such men as these attempt to praise Abraham Lincoln in order that they may profit by a little reflected honor that the nation can illy conceal its disgust.

Temperance people of Osage City Kansas varied the prevailing method of closing the saloons. They went in a body to the mayor and peremptorily ordered him to close the joints. He accepted the ultimatum and issued the necessary orders to the city attorney and marshal. The effectiveness of this procedure was shown by the fact that a part of the 80 saloons of the place were closed at once as soon as the decision of the mayor was made known. This method of procedure has the merit of being strictly within the limits of legality.

The election of McKinley and Roosevelt appears to have come to pass all right yesterday in spite of the absence of the latter on his hunting trip.

FROM THE PRESS OF THE NATION.

A Slip of the Pen.

(New York Tribune.)

The letter in which Mr. Wu Tingfang declined to attend the dinner given by the Society of the Genesee in honor of General Otis has aroused an even greater degree of interest than his fluent and unconventional speeches have frequently imparted to similar occasions. We are glad to observe, however, that though this interest is keen, widespread and peculiar it does not run into excitement anywhere. This fact is creditable to the American people, for it shows that they are not unnecessarily sensitive. It is also creditable to Mr. Wu, inasmuch as it is a proof of the general respect and regard which he has won under extremely trying circumstances. At the same time there would seem to be no impropriety in suggesting to that accomplished and amiable diplomat that one such test of his standing in the esteem of the public and of the government to which he is accredited is quite sufficient.

It may, perhaps, be admitted that it was a social indiscretion to invite the Chinese minister to listen to eulogies of an officer one feature of whose rule in the Philippines was the exclusion of the Chinese from those islands, but it does not follow that he was thereby authorized in a private, unofficial communication destined for publication to denounce General Otis for an act which until it is disavowed will remain the act of his government. Nor is Mr. Wu's diplomatic reputation enhanced by his assumption that General Otis "acted upon the ill advice of some one," whether the natural inference that the evil adviser to whom he alluded was the president of the United States is justly or unjustly drawn. Yet it may not be strictly necessary for the state department to inform the Chinese minister that his expressions are as unacceptable as they are singular. The probability is that, having seen his words in print, he is now aware that he has made a somewhat striking addition to the long list of things which one would rather have left unsaid. He is by no means the first diplomatic contributor to that list, and he is likely to have successors so long as a fondness for making public speeches is regarded as a special qualification for the diplomatic service in the country to which a foreign minister is sent.

The United States has inflicted some unhappy experiences of this sort on other nations, though fewer, we believe, than it has endured. In recognition of weaknesses common to the race it is usually wise to regard such incidents benevolently, taking it for granted that they were inadvertent and will not be repeated; and we have no doubt that in this instance the general disposition will be to make a generous allowance in favor of the Chinese minister.

Performances in the New Possessions.

(Washington Star.)

All pessimists who doubt the capacity of the United States to successfully manage the affairs of the new possessions should give heed to the conditions in Puerto Rico. American control has existed but a little over two years. We found squalor and want and ignorance in every part of the island. The people today are busy and contented, and the system of schools now in operation is superior to any ever before known there. These are not idle assertions. The facts are of record, and have just been certified to by the [illegible]. American customs of every kind are rapidly supplanting those of Spanish origin, and are found to be well suited to the [illegible] to the welfare of the inhabitants. A fair promise is that in a score of years Puerto Rico will be one of the richest islands of its size in the world, and its people among the happiest living anywhere under the stars and stripes.

We have had a fair chance there. The people made no resistance to the change of sovereignty. But is there any good reason to suppose that with an equal chance in Cuba and the Philippines we should not have done quite as well in those islands? We have done well in Cuba. Complete pacification has followed our control, the principal cities are in better health than they ever experienced under Spanish rule, business and planting are both profitable, and only the uncertainty as to the form and fate of independent government for the island has prevented a positive boom in all lines of business activity.

In the Philippines we have been confronted from the outset with a revolt against our authority, instigated and conducted by an adventurer who had no just cause of action. Our purposes were friendly, and had our welcome been on the order of that given us in Puerto Rico our line of procedure would have been similar to that which has been directed from San Juan. A governor would have made headquarters at Manila and throughout all the archipelago undisputed American control would have signified thrift, progress, education and safety to life and property. Even as matters have been we have shown to those who have submitted a kindlier face than ever they saw in office before, and the stars and stripes have been the symbol of toleration and a guarantee of liberty under the law.

And can that country be called incompetent and should it be discouraged from proceeding with such tasks, when it has men of the type of Allen and Wood and Otis and MacArthur and Taft at its command ready and willing to serve it in offices of difficulty and responsibility?

The Value of a Business Training.

"Business is king" proclaims "Success" in its February issue. The professions or specialties tend to narrow and dwarf the individual crushing out originality and individuality. Nature is opposed to one sided development, and the man who only trains one part of his mind to do one thing pays a very heavy penalty. A symmetrical, full-rounded development is what Nature is after.

A business career in this life has a great advantage over the professions or specialties. It gives an all-round development. Level headed men, as a rule are business men. Their education is general, they are constantly on the alert to take advantage of every opportunity.

Any system of training which does not exercise all of the faculties of the mind tends to kill the practical faculties. Specialists and professional men do not have as great common sense as business men who have an all-round training.

One half of the college graduates at the present time enter business. Not very long ago nearly half of our college graduates studied law. It was considered the proper thing then to go into one of the learned professions. It took great courage then for a boy to announce in college that he would enter a business career. Half a century ago going into business was not a very attractive proposition but the new civilization, the enormous commercial development of our country has made business king and glittering prizes are held up everywhere in business lines.

Y. P. S. C. E. Convention Will Be Very Big

The indications are that the state convention of the Young People's Society of Christian Endeavor, which meets in this city in June, will be the greatest gathering of any kind ever held here and the largest convention ever held in the state. At the Denver meeting last fall it was estimated that 1800 delegates attended. It is proposed to make it fifteen hundred in this city. Now that is a big gathering and as they stay three days this city will find itself taxed to handle them properly.

Last evening a meeting of the general committee in charge of the arrangements was held at the First Baptist church. Dr. Boyle presided. This committee is composed of delegates from the various churches represented. Mr. Boyle stated that it is proposed to make the characteristic feature of this meeting a discussion of Bible study. Famous Bible students will be present. Among them will be Dr. Pentacost and others equally well known.

About the middle of April the ministers of the city propose to go on a missionary tour of the state working up a lively interest in the big convention. They will start out systematically to the larger towns of the state and will hold Y. P. S. C. E. meetings that will interest the members in the convention.

Another way of awakening interest will be the establishing of a small newspaper devoted to Y. P. S. C. E. news. It will be issued until after the convention and if possible be made permanent. It will be printed semi-weekly.

Another meeting of the committee will be held a week from next Monday to further consider the work.

ANTLERS' MANAGER

The Colorado Springs Hotel company has finally made a selection for the management of the new Antlers in this city.

The name of the manager is not announced and will not be for a week or more, but the contract has been closed up and the hotel will be opened for business on the first of July of this year. This much was admitted at the office of the Colorado Springs company yesterday. The name of the manager and the details of the arrangement will probably be announced some time next week when Gen. W. J. Palmer and Dr. W. A. Bell are expected back from New York.

The contract for the furnishing of the house is being rushed as rapidly as possible and it is expected that there will be no occasion for delay by a failure of the furnishers to do their part. The furnishings for the house will begin to arrive about May 15 and will be placed in order as rapidly as can be done.

The management of the hotel will adopt a liberal policy of advertising the house, in order that it may become known thoroughly to the tourist and the traveling public at the earliest possible date. The old Antlers was one of the best known hotels in the entire west and there were hundreds of people who formerly visited Colorado Springs each year and were guests of the Antlers who have not visited Colorado since the fire that destroyed the old building. The new Antlers will attract all the old patrons to Colorado again and there is no doubt but it will be one of the great factors in the increase of the tourist business which is looked for during the coming summer.

SENSATION THAT FAILED

The police had a very funny proposition early yesterday morning and the newspaper men were buzzing around for a couple of hours under the impression that they had a "big story." About 3:30 Officer Fair arrested a man on Huerfano street at the request of the Colorado City police. The understanding was that the arrest was made because of a killing that had happened on the Manitou road. The fellow refused at first to talk only in the most insolent way and finally gave his name as G. F. Dillon. On him were a number of letters of G. F. Moore of Altman. He claimed that he was stopping at the Spaulding house, which was not true, and in other ways he tied himself up. He did not appear to be drunk. It seems that the Colorado City officers had in some manner got the impression that there had been a crime, and a general search was made but nobody was found. After daylight people began to come into the city jail and recognized the man as G. F. Moore, the person whom it was supposed he had killed. The whole thing seems to have been the result of a drunken dream. Moore was turned over to Marshall Birdsall of Colorado City and fined for disturbance and being drunk. His foolishness cost several people several hours sleep, and in the newspaper offices at least he is not forgiven.

NEW CADET OFFICERS

The High School Cadets held a meeting yesterday afternoon at 2:30 for the purpose of electing a major in place of Major R. R. Finkbiner, who has left school recently. There were three candidates for the place, Captain Heron of Company "A," Adjutant Bale and Lieutenant Riddle of Company "B." The ballot was very close, but out of the 66 votes cast Captain Heron received a majority and was declared elected. Major Heron is a great favorite with the cadets and was exceedingly well liked during the time he held the captaincy of Company "A." After transacting some other business the battalion adjourned and a meeting of Company "A" was at once called for the purpose of nominating officers. Lieutenant Lennox was nominated for captain, Lieutenant Morse for first lieutenant and Sergeants Terrill and Horn for second lieutenant. The election will be held one week from yesterday.

The cadet ball of this year, as was expected, was the most successful one that has ever been given. The treasury of the battalion is something like $50 richer as the result of the ball. Part of this money will be used in buying flowers for ex-Cadet Willis, who was severely injured by being thrown out of a delivery wagon a short time ago.

SCHOOL TELEPHONES

The system of telephones which the school board has been putting in all the city schools is now complete and is in use. It is a great convenience in a good many ways and saves the superintendent a number of trips daily. In the case of the Roswell and Bristol schools it is invaluable because these buildings are so far away from the high school. The telephones are so fixed that any building can talk with any other or one building can talk to all of the others at the same time. Of course there is no central station. Each building has its signal which is given by a certain number of rings of the bell. Six rings is a general call and means for all of the buildings to answer the call. The 'phone is in charge of the principal, and he appoints some one to have charge of it during his absence. The pupils are allowed the use of the telephone if they get the consent of the principal first, and a message sent to the high school will be transmitted to any 'phone in the city.

COURT NEWS

In the county court yesterday the case of Crowell & Lombard vs. Christy was continued until February 21, at 10 a. m.

L. N. Edwards was granted a divorce from Mary G. Edwards and was given the custody of two minor children until further order of the court.

The case of O'Haire vs. Perkins was dismissed on motion and at the cost of plaintiff.

The case of Johnson et al. vs. Childers was disposed of by an agreement to a judgment for $150 in favor of the plaintiff.

POLICE NEWS

Bo Denny, the negro who was recently acquitted on a charge of burglary in the district court in this city, was arrested again by the local police on a message from the Denver police which says that Denny is wanted in that city for the same crime. The man was only taken after a struggle and had to be handcuffed before he could be taken to jail. The arrest was made by Chief Henry and Detective Atkinson on Huerfano. The prisoner is well known in police circles in this city, having served two terms in jail.

The old reliable Pat Burns is again in the "quay." He was arrested by Officer Gaines on the corner of Cascade and Pike's Peak yesterday and will come up before the judge for the tenth time in the past six months.

John Bailey and J. J. Kelly were arrested on Huerfano about 7:30 last night by Officers Birch and Hughes on charges of begging and drunkenness. They had been told by the officers to get off the street before last night but had disregarded the order. Both men are known to the police here.

THAT OIL "GUSHER"

The following is taken from the San Francisco Oil Reporter, under date of Feb. 8, and concerns oil wells adjoining and in the immediate vicinity of the Three States and Bachelors Oil companies of Kern county, California, now represented represented in this city and at room 8, Giddings block.

The Barrett has a good well on 2-11-24.

The Arcola, on 2-11-21, has a fine well.

The Acme and the Golden Gate have five wells on 34-12-24.

The Grocers is down 400 feet on 34-11-24.

The C. B. and W., on 3-11-24, have completed well No. 1 and will soon start No. 2.

Peerless well No. 8 is producing 400 barrels a day, and Nos. 9 and 10 are being finished.

Twenty finished wells and an output of 50,000 barrels a month, or 80 per day, for each well, is the record of the Thirty-three Oil company.

On 12-11-24 the Lion last month sold oil to its neighbors to the amount of $750. A Keystone rig has been purchased and it will be ready for drilling about the middle of the month.

Monarch No. 2, in 2-11-24, has broken loose several times lately, and has flowed 40 feet for hours at a time over a 66-foot derrick, flooding the whole country with oil. It is now under control. After the well had steadied it filled a 150-barrel tank in 50 minutes. While gushing the force of the flow raised the 700-foot casing over nine feet in the hole and it had to be driven back. Well No. 1 is on the pump.

PREMIUM GROCERY EMPLOYES BANQUETED

Mr. F. B. Ross, proprietor of the Premium grocery and meat market, gave a banquet to his employes, at the Alta Vista hotel, last night. Covers were laid for 36, and the married men and their wives and the single men and their sweethearts ate heartily and drank to the health of the "anti-trust" grocery and its proprietor. The tables were very prettily decorated with carnations and greens and the party presented a merry picture. During the evening a flash-light picture of the banquet was taken and a photograph of the scene will be given to each person present. The Premium has been and is one of the most enterprising stores in the city and the secret of its success was shown last night when the good feeling which exists between employer and employe was brought out at the banquet.

AN ORGAN RECITAL AT GRACE CHURCH

A crowd of music lovers attended the organ recital at Grace Episcopal church last evening and they were in no wise disappointed, for a feast of sweet music was presented to them. By 8 o'clock every seat in the building was occupied. The surpliced choir, which has shown wonderful improvement of late, was in attendance and opened the musical service by singing the hymn, "Pleasant Are Thy Courts Above," in which the congregation heartily joined. After two prayers by the rector of the parish, the recital commenced, and went from beginning to end with uncommon brilliancy and finish. Of the organ playing by Prof. Akers one must speak in the highest terms, and congratulate Grace church upon having secured so genuine a musician. He possesses a complete mastery of the instrument, and carries his audience with him as he plays. It would be invidious to particularize any item in the well-varied and sparkling programme. "The Largo" (Handel) and the brillian "Toccata" (Dubois) were magnificently rendered. Mr. Akers' own composition entitled "Ave Maria" proves him to be a clever composer and was listened to with rapt attention.

Then besides the organist's renditions were two soprano solos, both given in a manner worthy of the highest commendation. "Christ, the Pilgrim," as sung by Mrs. R. Musser Fox is a very beautiful composition, and unlikely to be forgotten for many a long day by those who had the privilege of listening to such a gifted singer. This lady owns a dramatic soprano voice of extraordinary compass and quality, remarkable for purity of intonation and enunciation.

Miss May Pierson, a young lady well known in this city, and who has a beautiful voice, did excellent justice to "Angels Ever Bright and Fair" (Handel) a very difficult solo. This young lady's efforts must have been very gratifying to Mr. Akers, under whom she is studying.

A word of praise is due to Master Ralph Smith, one of the Grace church choristers, who sang "The Chorister," by Sullivan, very nicely. He has a very sweet and pathetic voice which people will be glad to hear on some future occasion.

THE ELKS' OFFER

Yesterday the committee of the local lodge of Elks, which has in charge the securing of the national home in this city, forwarded its proposition to the grand lodge officers. The proposition is this, that the citizens will give a site for the home. If ground is broken by the first of February, 1902, and the home fund has reached $100,000 then Mr. W. S. Stratton will donate the sum of $20,000. This is a splendid offer and the local committee believes that it will capture the home. It is known that the members while here were immensely pleased with what they found. The offer of course comes through the local lodge, although the business men of the city are back of it.

"OTTUMWA'S" CONCERT TONIGHT

The concert tonight by the Ottumwa Male quartette will be a real musical treat. Ottumwa is the beautiful Indian term for "Rippling Water," and the thrilling power and tender sweetness of the Ottumwas' music renders the name superlatively appropriate. The abundant honors thrust upon this organization by the music-loving public from the Gulf to the Great Lakes and from the classic Bay State to the breezy Black Hills have given this constellation of musicians the brightest place in the firmament of America's male quartettes. The harmony of their voices, the richness and volume of tone, scholarly rendition of the classics and their abundant fund of rich and rollicking humor combine to make it the most popular of all the male quartettes and with the assistance of Miss Addie Chase Smith, reciter, the company gives one of the most pleasing entertainments which the people of Colorado Springs will have opportunity to enjoy. Tickets may be had at Lauterman's or at the door. Admission 75c.

MRS. CARTER'S LUXURY.

Mrs. Leslie Carter is something of an inventor in addition to her accomplishment as an actress. Just before starting out last fall for the road tour of "Zaza," some one chanced to remark to her one evening after the play at the Garrick, that she would probably feel sorry to leave the comfortable dressing room which had served for so months to endure some of the less neat and commodious accommodations provided by many of the theaters throughout the country. The remark suggested something to her, and she made an inward note that that something should be carried into effect.

The next night Mrs. Carter called for the stage carpenter. When that dignitary appeared, the two went into secret session. The result was not known until the Garrick engagement closed and everything was ready to be moved to the next stand. Then it was the carpenter produced the results of his work. It consisted of five flat pieces resembling unpainted bits of scenery—that is, they consisted of an expanse of stout canvas tightly stretched over a framework of wood. These were carried with the rest of the company's impediments to Brooklyn, where the carpenter proceeded to set them up in the space at the right of the stage. The result was a dressing room made after Mrs. Carter's own ideas, and having every convenience imaginable. It was constructed by the canvas frame being set up as the four walls and ceiling, one wall having a door that led into the room.

The advantage of this is that Mrs. Carter can carry it with her wherever she goes, and that she may always feel sure of comfort and convenience and the luxury of not having to adjust herself to new surroundings.

The actor's one idea of stage luxury is a bright, clean, convenient dressing dressing room, and certainly Mrs. Carter's unique contrivance is all of these. The walls and ceiling are hung in pink and white dimity. Two large mirrors are conveniently placed, each closely surrounded with incandescent lamps red, green and white, so that by the mere turning of the switch, she can see precisely the effect of her make-up and her gowns when these colors are used on the stage. Close at hand are three dressing tables, and at the farther end of the room is an electric heater with an appliance for regulating the temperature of the room. A beautiful Turkish rug, 15 feet square, covers the floor, and along the side walls are countless hooks and shelves. At the top of the walls are arranged two long and narrow transoms, which may be opened for ventilation, but the supreme luxury of all is a comfortable hammock, which can be extended from one side to the other, and in which the actress may recline for a few minutes after the trying ordeal of the fourth act. In addition to her own dressing room, the regular "star" room of the theater is at Mrs. Carter's disposal, and in this two maids lay out the elaborate wardrobe which is to be worn in the play. Altogether Mrs. Carter's happy faculty of invention has added materially to the comforts of the present road season.

THE TELEPHONE GIRL.

Buoyant and picturesque, spirited and comical, "The Telephone Girl," Morton & Kerker's brilliant comedy conception, direct from that home of frothy delights, the New York Casino, comes to the opera house next Saturday evening. The cast is altogether new and, it is said, unusually strong. Harry Hermsen, an unctuous comedian, is the new Hans Nix. Miss Mabel Hite, a young comedienne of exceptional beauty and chic methods, is the new Estelle, the "Queen of the Telephone." The others in the company are Jennings and Ford, the dancing wonders; Flora Parker, the dainty comedienne; Bessie Gilbert, the great cornet virtuoso; Charles Burrows, Louise Lewis, John J. Magee, Bert DeRuelle, Inez Dale, Melda Herrmann, Jean Bernard and Edith Gibbons. That salient feature of previous seasons, the exclusively feminine chorus, composed of selected stage belles, will be much in evidence. Up-to-date songs, the newest fresh comedy scenes and considerable new and delightful music have been introduced. For four seasons "The Telephone Girl" has more than held its own as a predominant attraction. It is particularly well adapted to the average theater-goer.

Hot Air Kills La Grippe.
Just a few treatments in our Hot Air Baths and your Grippe is entirely eradicated from your system. The poisonous deposits left by this disease and which hang on so obstinately, causing throbbing headaches, muscular soreness and a feeling of general weakness yield more readily to the Hot Air treatment than to any other. These dangerous poisons must be entirely disposed of before the system can build up again, and while they remain in the body are a constant menace to health and a permanent danger, ultimately concentrating in the body's weakest point and causing other severe sickness. If you've had the Grippe be sure you get it all out.

MINING NOTES AROUND TOWN

The Colonial Dames company has sold its [illegible] isolated portions of its Calent[illegible] hill group to the Prin Seti Gold Mining company of recent flotation. They are the Ida May and south end of the Silver Lake claims and were transferred for a consideration which has not been made public but which is considered to be [illegible] of one [illegible]. It should also be stated in connection with the Gold hill group of the Colonial Dames company that the Lessman claim is still an essential part of the group. It was stated yesterday in these columns that the [illegible] had been sold to the Challenge company. It now appears that only a small portion of the claim was sold and that the Dames group, one of the most compact and valuable acreages on the hill, remains intact.

BOB LEE GRANTS LEASE ON LITTLE JOE

The Bob Lee has just granted a lease on the eastern end of the Bob Lee and Little Joe claims to D L Seymour [illegible] months from the middle of March. As the lessees are given 30 days for prospecting the ground before starting legitimate work. Some [illegible] float has been found on this portion of the company's property and it ought to carry a vein. The royalties which the lessee will pay are graded, ranging from [illegible] to [illegible] per cent according to the value of the ore shipped. The work called for is a good shaft put down to a considerable depth. When the lessee has sunk deep enough to require it a plant of machinery will be installed. The lessee is [illegible] well backed and able to do very active work. This ground is located about 300 feet distant from the point where the company is working.

STRATTON'S INDEPENDENCE NEARING 1,000-FOOT DEPTH

The shaft on the Stratton's Independence property is now within 1[illegible] feet of the 1,000 foot point and sinking is being continued rapidly. When the deep station is cut levels will be run to the ore bodies and the sinking will be continued. A large compressor has just been installed and is now in working order so that the development work is greatly facilitated in different portions of the property.

GOLD COIN PRODUCTION 3,400 TONS IN JANUARY

The figures for the output of the Gold Coin mine for the month of January have just been made up and show that 3,400 tons of ore were shipped, the largest amount in the history of the mine. The rich ore which was opened up during January in the 550-foot level and taken out in the course of development work somewhat increased the average value of the ore.

GOLDEN DALE WILL MARKET TRIAL SHIPMENT

Ore for a trial shipment is now being hoisted from the Golden Dale sub lease where the strike was made a few days ago. The ore assays good pay and the shoot has been widening out as depth is gained on it but it will need a trial before the exact value of the strike is known. The property adjoins the Moose which shipped a large amount of pay ore at a similar depth.

WORK BEING PUSHED ON MINT AND POINTER

Work on the Mint and Pointer properties of the Pole Mattocks syndicate is being rushed. The Pointer [illegible] feet of the Mint shaft and when the [illegible] is under the shaft an upraise will be started for a connection. The Mint shaft is now down 500 feet and when the connection with the Pointer level is effected it will have a depth of considerably over 600 feet as the Mint is located further up the hill than the Pointer shaft. Then the work of sinking will be pushed rapidly. Two cars of ore left the Pointer yesterday, the rock running about three ounces in gold to the ton and a shipment of the same size will leave the latter part of the week. With this there will be included about five tons of rich ore from the bottom level which ships $600 in gold to the ton.

RICH ORE FROM LOW LEVEL IN SANTA RITA

A report has been in circulation that the 600 foot level in the Santa Rita mine was [illegible] that this is unfounded. In fact [illegible] the lift [illegible] water is being encountered but not more than can easily be handled by the sinker pump. The mine is producing a little ore from this level although the work of the contractors still hinders any considerable production and some high grade ore [illegible].

SINKING TO BE RESUMED ON THE DILLON MINE

Sinking in the Dillon shaft is [illegible] resumed [illegible] as a result of the [illegible] stockholder of [illegible] company whose wishes in regard to the conduct of the property clashed with those of the other directors. The shaft [illegible]

GERMAN-AMERICAN CO.

Is Drifting on Fairly Good Vein from the Ophelia Tunnel--Princess Alice Improvements--Steady Shipments from Santa Rita.

Special to the Gazette.

Cripple Creek Feb [illegible]. The management of the German American company is [illegible] at the mouth of the Ophelia tunnel. The company has drifted for a distance of [illegible] feet on a fairly good vein of ore from the tunnel level to the north and is now about [illegible] feet from the tunnel. There are about five cars of ore of average two ounce grade and [illegible] sacks of ore [illegible] a little better grade stored in the tunnel ready for shipment. The company will sink a winze on the ore at this depth, which is about 250 feet from the surface and at the same time commence to stope. The building of the ore house has been delayed owing to the non-arrival of the lumber which was [illegible]. The company encountered [illegible] on the vein catching it again about two days ago.

Lessees Karl and Morse [illegible] a rather large [illegible] north [illegible] company's property [illegible] of Globe hill. The lessees [illegible] commenced to save [illegible] for a trial shipment.

The values in the 4[illegible]0 foot depth from the tunnel level of the Anaconda [illegible] company's property show a marked improvement and the ore body is growing in size. The company is now shipping regularly from the [illegible] a distance of 100 feet north of the cross-cut at this depth where the vein was first cut [illegible].

The Princess Alice company operating on Bull hill will straighten its shaft as soon as [illegible]. The present [illegible] shaft [illegible] down [illegible]. The company will straighten it from this point [illegible] mining to sink [illegible] which is proving productive in what is at present the bottom level. A winze has been sunk on the vein for a depth of [illegible] feet [illegible] noted [illegible] grade ore exists in Bull hill [illegible]. A shipment of a ton and a half of high grade [illegible] was sacked the first of the week.

The [illegible] company is [illegible] ore house [illegible] Gold hill. The shaft is [illegible] the 40 foot depth.

The Santa Rita mine is shipping steadily [illegible] levels of the property and the gold which is [illegible].

The [illegible] Dillon mine on [illegible] hill [illegible] 1,000 feet. The shaft is at present down to the depth of 500 feet where development work is in progress. The upper levels of the property will also be worked for the [illegible] ore for which the mine is noted.

MARY M'KINNEY IS PUMPING

Another Pump Just Installed, and a Flow of Between 900 and 1,200 Gallons is Being Handled Easily.

The Mary McKinney company has just put in another pump at the 500-foot station and is now handling a rather large flow of water without any embarrassment and work is in progress in the drifts at this depth.

This pump makes the fifth which is now being used to care for the water which is coming into the mine. There is the regular station pump and four sinker pumps besides, with a capacity between them of 2,400 gallons [illegible] making between 900 and 1,200 gallons a minute although the flow yesterday was not so heavy as it was the day before.

There was a report on the streets yesterday that the fifth level of this mine was not only under water but that all effort to keep it dry had been abandoned and the pumps stopped. This was emphatically denied by an officer of the company who stated that although the mine had been handling a heavy flow of water there had been no serious danger of losing the level and that the additional pump had been [illegible] more as a precaution than a necessity.

This level [illegible] for several months under water and until pumping was started in the Morning Glory shaft of the Work company the Mary McKinney management did not feel like undertaking to lower the water of Raven hill alone. The Doctor-Jack Pot company is now installing a large pump in the Morning Glory shaft to unwater it to the 720 foot level which will probably assist the Mary McKinney pumps. It [illegible] that the [illegible] flow which the Mary McKinney has had to handle has been due to the fact that the Elkton has suspended pumping.

It has always been true of Raven hill that in the liveliest water courses the richest ore has been found and while no official statement could be obtained yesterday of the value of the ore which is being opened in this level it is supposed to be of a very satisfactory grade. It was admitted that values in the fifth were all as high as they had been in the upper levels of the mine.

MOON-ANCHOR IS SHIPPING

The Lessees Shipped 110 Tons During the First Two Weeks of This Month, Ranging Between One and Three Ounces.

During the first two weeks of the month of February the lessees on the Moon Anchor property shipped 110 tons of ore which [illegible] one and [illegible] ton.

There are some [illegible] sets of lessees working on different portions of the company's territory on Gold hill and the work which they have done in the various levels is showing the ore shoots to extend much further than they were worked by the company.

The leasing system is proving of as much value to the Moon Anchor as to the Anaconda and while it is not proving up any values in what is known [illegible] at a great depth it [illegible] can be seen. Taking the average value of the ore at [illegible] in gold [illegible] the output for two weeks would amount to [illegible] of the net which the company receives about 25 per cent.

Several of the larger companies are adopting the leasing system for a portion of their holdings and it meets with quite general commendation on the [illegible] one to adopt the policy is the Maton [illegible] is being divided up into blocks for leasing.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

[illegible] the local mining stock exchange [illegible] which would distinguish it from the excellent one [illegible] for several days. A number of fresh advances [illegible] showed, swinging the [illegible] confidence and good feeling. [illegible] near camps about Elkton and other [illegible] effect upon the market and [illegible] was very satisfactory in the face of the [illegible] bottom levels. The demand for all classes of [illegible] in the history of the exchange. The only department which is not sharing greatly in the prosperity is the unlisted. The [illegible] seem to be cast into a shadow by the pit call, where some [illegible] active, although some very worthy stocks are also among the [illegible] in that department.

The [illegible] in the afternoon [illegible] practically all of the morning's advances and scored some further gains. C. C. Columbia closed at 14⅛, buyer 30. Alamo went to 15⅜. Easter Bell sold at 6¾ and Eclipse was strong at 10. Missouri gained fractionally during the call and Acacia sold as high as 24, buyer 30. Bob Lee [illegible] and Damon advanced to 17½. Kimberly [illegible] close, and Sedan sold at 17. Horseshoe was in good demand at 2½ and Zoe closed at 25¾. In the mines list good strength was shown, Anaconda selling at 44⅝, C. C. Cons. at 12¼, Elkton at $1.87½, Golden Cycle 80½ and Pointer 19¾, buyer 30. Pharmacist sold at 11¼. Work down to 21 and Black Bell at [illegible]. Lexington, however, was strong at 10⅞.

The trading for the day amounted to 1,233,912 shares of a cash value of $174,180.

STRIKE ON THE ROSE NICOL

The Vein For Which the Company Has Been Drifting at a Depth of 400 Feet Has Been Opened and Carries Low Grade Ore

A good strike has been made in the property of the Rose Nicol company on Battle mountain. The company has been drifting at a depth of 400 feet from the surface for a vein known to exist and yesterday cut it at a distance of about [illegible] from the shaft. At the point of intersection the vein carries some low grade ore and is well defined and promising. Drifting will be started in both directions upon the ore shoots.

The property of the company is located favorably for finding good ore. On its side line it is [illegible] by a portion of the Portland company's holdings and it also adjoins the [illegible] Battle mountain company on [illegible]. [illegible] of the property [illegible] several shipments have been [illegible] all showing good values.

GERMAN-AMERICAN STRIKE

On the Puzzler Claim a Vein Shows a Streak of Ore 20 Inches Wide Which Averages $44 in Gold to the Ton.

The advance in the price of German American stock during the past 10 days or so has been quite pronounced. A good many have been wondering why the stock has been strong for while there were a good many rumors concerning the proposition there was little that was definite that could be learned.

The facts are that quite an important strike has been made in the company's Puzzle claim. The vein in which ore has been discovered was first encountered in the Ophelia or Moffat Bush tunnel. After it was struck the vein was drifted on for a distance of 125 feet and it is found that the last 35 feet of drifting that has been done is all in ore with a good showing still in the breast. The pay streak in the vein is 20 inches wide and the ore will average about $44 per ton. Most important however is the fact that the strike has been made at a depth of [illegible] feet from the surface thus assuring the company plenty of stoping ground.

There is now in the bottom of the mine 75 sacks of ore and four or five tons of mill dirt ready for shipping. Production will be started as soon as possible but up to now has been delayed by reason of the fact that no lumber could be secured with which to build ore bins. A contract has now been let however for the [illegible] of ore bins and they will be put up as fast as possible.

The indications are that a regular shipping mine has been opened up. Stoping will be started right away and a steady output maintained.

PRIN-SETI LATEST FLOTATION

The Company Owns 24 Acres in the Cripple Creek District, and Famous Murphy Mine in Chalk Creek.

A new company has just been floated in this city which seems to be somewhat more attractive than the average flotation of recent weeks. At any rate the circular which advertises it is one of the handsomest which has ever been issued in the city and bespeaks an energy on the part of the promoters which, when applied to mining should result in satisfactory developments upon the various properties which this company the Prin Seti Gold Mining company is to own, to wit:

On Gold hill the Prin-Seti and Pioneer lode claims, the Bessie G on Gold and Raven, the Nellie C on Raven, the Ohio 1 and 2 on Straub and the Marietta on Raven, also the Ida May and southern end of the Silver Lake claims on Galena, about 24 acres in the Cripple Creek district.

In addition the company owns the Thunder Bolt, Flag, Hanford and Mill site, 33 acres on Murphy mountain in the Chalk Creek district. These are combined in what is known as the Murphy mine producing gold, silver and lead. To date about [illegible]0,000 tons have been shipped of a value of $[illegible],000,000 and it is at the present time shipping 150 tons a day.

The company is capitalized at $1,750,000 divided into as many shares of a par value of $1 each. The directors and officers are C. H. Emerson, president and general manager; W. A. [illegible], vice president; August Helmer, second vice president; A. J. Parker, secretary, and Ben A. Metcalf, assistant secretary and treasurer.

The company owns nearly [illegible] feet of the Prin Seti vein and a junction with it and the Fauntleroy vein occurs within Prin Seti territory. The Gold Exploration Tunnel company owns a lease on the Prin-Seti claim which has still one year to run.

The company will develop the Murphy mine by means of the tunnel which it is estimated will attain a depth of 1,700 feet. The veins are true fissure veins of immeasurable depth.

EASTERN MARKETS.

New York, Feb. 13.—Speculative [illegible] [illegible] was [illegible] of the day in [illegible] and [illegible] toward the close [illegible] the selling became urgent [illegible] of the stocks which have [illegible] been manipulated in the progress of [illegible] [illegible] bargains [illegible] were [illegible] [illegible] [illegible] offerings [illegible] were tumbled upon the [illegible] [illegible] generally [illegible] there was a feeling in [illegible] [illegible] [illegible] favorite Wall [illegible] [illegible] The [illegible] that the [illegible] announcement [illegible] [illegible] in pres[illegible] [illegible] probably had much [illegible] with this feeling. The [illegible] which the [illegible] has [illegible] accus[illegible] [illegible] the [illegible] rather than [illegible] with [illegible] accustomed [illegible] of a [illegible] [illegible] up into [illegible] millions. The [illegible] to look for further important developments in the [illegible] [illegible] the current reports of contemplated [illegible] by several of the capitalists who have been foremost figures in the great financial projects which have recently dazzled the speculative world. There has been daily and even hourly expectation that the details of the financial plan for effecting [illegible] steel combinations [illegible] the public. The delay in giving out this information has been trying to the nerves of the speculators long of the steel stocks and they [illegible] than on previous occasions since the [illegible] [illegible] their holdings. The repeated rebuffs which the bears have received has made them very timid and there was not much evidence of an effort to cover short accounts. There was an [illegible] large short selling today in the [illegible] that an extended period of [illegible] had been fairly inaugurated, a [illegible] which has been indulged in many [illegible] the course of the extra[illegible] market.

The [illegible] affairs in the money [illegible] scant ground for apprehension on the part of speculators [illegible] [illegible] for carrying their holdings. It is evident that the recent [illegible] extension of [illegible] for [illegible] railroad combinations has much curtailed the future resources of the money market. The return of funds from circulation is distinctly less with the growing activity of business [illegible] incident to the spring trade. The absence of American subscriptions of any important volume to the new British loan excites comment. It is due in part to the cheaper condition of the foreign money market which resulted in the present unattractive [illegible] to American investors but there [illegible] [illegible] narrowed surplus [illegible] the New York [illegible] [illegible] also had to do with preventing American bids for the loan. The rate of sterling exchange makes it evident that any considerable subscriptions for American account to the exchequer bonds would have necessitated gold exports. The January figures of exports of agricultural products showing an increase of nearly $20,000,000 over those of the preceding January make this condition the more extraordinary. It is believed the return of American securities during the last few months has been in much larger volume than any of the usually accepted statistics indicate.

Bonds were weak in sympathy with stocks. Total sales $3,35[illegible],000.

The London Market

New York, Feb. 1[illegible].—Commercial Advertiser's London financial cablegram: The stock market here today showed [illegible] [illegible] with a [illegible] [illegible] [illegible]. The American demand was much busier [illegible]. In the early hours prices were strong on the demand for Atchison and Reading issues but a lot of selling [illegible] from New York fell like a wet blanket on the market causing a full [illegible].

Chicago Grain and Provisions

Chicago, Feb. 13.—Following the opening depression which seemed in perfect consonance with the news and statistics of the day the wheat market behaved in an extremely bullish manner. Speculation [illegible] [illegible] the continental strength against Liverpool's failure to respond to advances on this side and laid the rest to a covering movement. May wheat opened [illegible] to [illegible] lower at [illegible]. Commission houses bought on a fairly liberal scale. Meanwhile selling July, which sold at a discount of [illegible]c under May, [illegible] [illegible] came into the market and in bidding for tightly held wheat sent the price up to [illegible]. In this rally sympathy with the corn market was influential. The [illegible] visible showed an increase of [illegible],000 bushels and [illegible] [illegible] from both bulls and bears and [illegible] which the market reacted to [illegible]. Again inquiry was renewed [illegible] to find that little was for sale. May was forced sharply to [illegible] and the close was strong [illegible] over Monday at [illegible]@[illegible].

Corn [illegible] some [illegible] to the opening wheat easiness. Later it strengthened on seaboard clearances and the cash inquiry but later eased off on realizing sales.

Oats were dull and featureless.

Provisions ruled dull but steady.

The leading futures ranged as follows:

Ingham Consolidated G. M. Co.

To the Stockholders of The Ingham Consolidated Gold Mining Company, Limited:

At a meeting of the board of directors of this company, held this 8th day of February, 1901, the following preamble and resolutions were adopted:

Whereas, This company now holds in its treasury shares of the capital stock of The Doctor-Jack Pot Consolidated Mining company to an amount equal to one share of such stock for every four shares of the capital stock of this company now issued and outstanding, and

Whereas, The said Doctor-Jack Pot stock is now held subject to an agreement between this board and the owners of other properties included in the consolidation pursuant to which the said Doctor-Jack Pot company was organized, to the effect that the said stock shall not be sold or distributed for a certain time, but it is considered by this board advisable and for the best interest of the stockholders of this company that definite action be taken now in regard to the distribution of the said Doctor-Jack Pot stock held by it and that the stockholders of this company be informed of such action, now, therefore, it is

Resolved, That a dividend of twenty-five (25) cents per share upon the capital stock of this company now issued and outstanding be, and the same hereby is, declared, the same to be payable on the twenty-fourth day of December, 1901, in the capital stock of the Doctor-Jack Pot Consolidated Mining company, at the par value of the same, to stockholders of record on the books of this company at that date, and that the transfer books of the company be closed on the fourteenth day of December, 1901, and reopened on the twenty-sixth day of the said month. And it is further

Resolved, That the officers of this company be, and they hereby are, instructed to deposit forthwith with The International Trust company of Denver, Colorado, the said stock of The Doctor-Jack Pot Consolidated Mining company held by this company, properly endorsed for transfer, with instructions to hold the same in trust and to apply it to the payment of the dividend declared in the preceding resolution according to the terms and conditions therein stated. And it is further

Resolved, That the secretary of this company be instructed to mail a copy of these resolutions forthwith to each stockholder of record in the company and to publish the same for ten (10) days in a daily newspaper published at Colorado Springs. Very respectfully,
F. M. McMahon,
Secretary.

To the Stockholders of The Kimberly Gold Mining company.

Notice is hereby given that a special meeting of the stockholders of The Kimberly Gold Mining company will be held at the office of the company, 115 East Pike's Peak avenue, Colorado Springs, Colorado, at the hour of 2:30 p. m., on Monday, the 25th day of February, A. D., 1901, for the purpose of considering and ratifying or disaffirming a contract made January 21, 1901, by the board of directors of the company for the sale of all the mining property, real estate, machinery, etc., of the company, except that portion of the Old Hickory lode claim, U. S. survey No. 10262, lying north of the Black Bell lode claim and east of the easterly side line of the Australia lode claim, U. S. Survey No. 7583.

By the terms of said contract of sale The Kimberly company has the option (1st) To demand and receive the sum of $240,000.00 in cash for said property, or, (2nd) to receive 600,000 full paid and non-assessable capital stock of the El Paso Consolidated Gold Mining company, after the authorized capital thereof has been increased to 2,000,000 shares of the par value of $1.00 each, and after 500,000 of said shares full paid and non-assessable, have been placed in the treasury of The El Paso Consolidated Gold Mining company.

Said contract further provides that any stockholder of The Kimberly Gold Mining company may elect to receive as a dividend from the proceeds of said sale either his pro rata portion of said $240,000 or his proportion of said 600,000 shares of the stock of the El Paso Consolidated Gold Mining company.

The books for the transfer of stock will close at noon on February 20, 1901.
Geo. Bernard,
Attest: S. S. Bernard, President.
Secretary.

You Will Know, Too,

By the use of our late and most scientific tests for the eyes you will know as well as we when you are fitted properly. We use tests too whereby we are entirely independent of the usual answers put to the patient, but from the customer's standpoint it is more satisfactory to have an actual demonstration of just how he is going to see with his glasses.

We can show you.

TO SOFTEN

the skin, and to keep your hands white and smooth you should use Ward's Albina Cream. It is put up in large bottles, pleasantly perfumed, quickly absorbed. As it is not sticky nor greasy, it can be used at any time.

YOUR HANDS

need special care at this season. To dry them hurriedly and then perhaps to go out in the air, is to endanger their softness and whiteness! To use a little Albina Cream every day of wintry weather, is quite as essential as to use soap and water. 25 cents.
